

**Sophio Arsenishvili (Ph.D. invited teacher of I. Gogebshvili Telavi State University)**

## **1. Project Writing and Presentation**

The course “Project writing and presentation” aims to give basic knowledge in theory of project planning and structural development together with practical experience of project writing.

Students, after receiving necessary theoretical knowledge are suggested to form groups on bases of common interest and write group project. Students who are willing to do it separately are also welcome.

The main topics of course are: determination of problem, aims of project, objectives of project, steps of project implementation, budget, time plan, expectable results and monitoring.

During the teaching course we also work on development of presentation skills of students.

As the result of the course we get ready project presented by students.

### **Mandatory Reading:**

1. Sample for project writing Open Society Georgia foundation, [www.osgf.ge](http://www.osgf.ge)
